

Follow-Up After Emergency Department Visit for Substance Use (FUA)

HEDIS® Measurement Year 2024

Measure Description: The percentage of emergency department (ED) visits among members 13 years of age and older with a principal diagnosis of substance use disorder (SUD), or any diagnosis of drug overdose, for which there was follow-up. Two rates are reported:

1. The percentage of ED visits for which the member received follow-up within 30 days of the ED visit (31 total days).
2. The percentage of ED visits for which the member received follow-up within 7 days of the ED visit (8 total days).

Eligible Population

Members who are 13 years of age or older on the date of the ED visit with a principal diagnosis of SUD or any diagnosis of drug overdose on or between January 1 and December 1 of the measurement year.

Product Lines

Commercial, Medicaid, Medicare

Data Collection Method

Administrative (claims) and Supplemental data.

Exclusions

Members are excluded from the measure if they meet the following criteria:

- Members who are in hospice.

Measure Compliance (numerator)

A follow-up visit or a pharmacotherapy dispensing event (two rates are reported):

- within 30 days after the ED visit, including on the date of the ED visit (31 total days).
- within 7 days after the ED visit, including on the date of the ED visit (8 total days).

Follow-Up After Emergency Department Visit for Substance Use (FUA)

HEDIS® Measurement Year 2024

Measure Compliance (numerator), continued
