## Tips for Correct Coding

- Differentiate between active fractures and after care treatment.
- Active fracture treatment is **not** usually provided in a primary care setting.
- If there is no evidence of an active fracture, the billing provider can submit a corrected claim to have the member removed from the measure.

*The Health Plan has a team of member advocates, health coaches, social workers and nurses who can assist you and your patients to remove or overcome any barriers to care through benefit assistance, community resource referrals or enrollment in a THP clinical program. To refer a patient who is a THP member for assistance, call **1.877.903.7504** and let us know what we can do to help your patient receive and adhere to your recommended plan of care.*
